

TEROM

Producer of frame
metal constructions,
welds and spare parts

based on customer supplied documentation.

Established systems according to standards

- ISO 9001
- EN ISO 3834-2
- ISO 14001
- EN 1090

2D and 3D projection

- AutoCAD LT[®]
- Solid Edge[®]
- 3D CAD Inventor[®]

Product portfolio

includes components, small steel parts, welds of larger sizes, including large assembled units on the basis of customer's drawings.

Tool-holder
for agricultural machines

25
years

of experience
in engineering industry

Box of switches

7000
m²

production and
storage area

Bridge dilatation

Dis-mountable construction
for agricultural machines

Plastic art
of an iron tree

Qualified
staff

of 45 professionals

European

production
standards implemented

up
to **5**
tons

from small parts
to large weldments

individual
&
assembled

units

Lacquered welds

Single seat
pallet truck

Galvanized floats

Undercarriages
of non-standard
vehicles

Set of a part
of undercarriage
